

WE ARE FREEWALL

Freewall offer unlimited scope to create efficient storage systems for any workplace environment.

Our unique design led approach and in-house, UK based manufacturing facilities enable us to create bold or complementary bespoke crafted solutions.

Whether you aim for supplementary concealed cupboards or high-end finished furniture with eye-catching features, Freewall helps you develop solutions specifically conceived to meet your storage requirements.

PERFECTLY BALANCED TO BLEND IN

SUBTLE SPACE SAVING SOLUTIONS

Our storage solutions can be designed to blend effortlessly into your office environment creating functional, flexible and elegant spaces which are complementary to its surroundings.

We offer so much more than just cupboard space, our tailored systems are designed to fit from floor to ceiling and wall to wall, maximising every inch of available space.

NEUTRAL FINISHES

CONCEALED HINGES

SEAMLESS HANDLES

MINIMISED SHADOW LINES

STAND OUT FROM THE CROWD

At Freewall we can also design tailored solutions that make a real statement and signature feature in your workplace.

From reception display units and break-out seating areas to high-end finishes and manifestations, our solutions are incredibly versatile to help you maximize storage space whilst adding a design touch.

MANIFESTATIONS

DISPLAY GRIDS

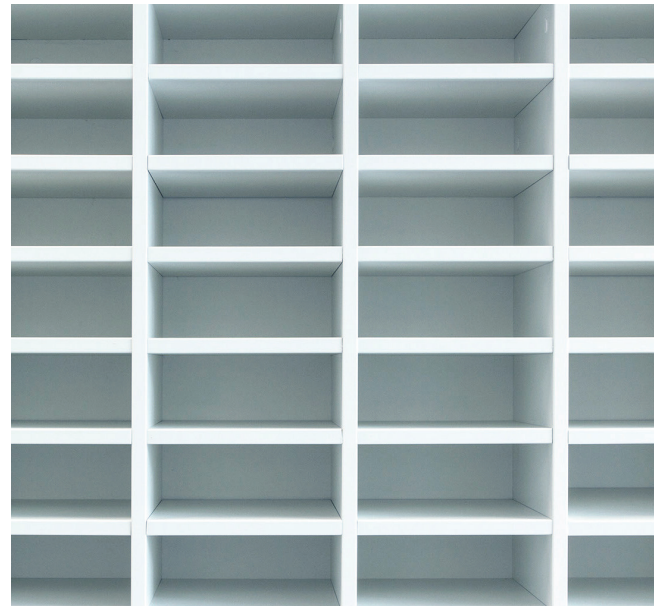

WALK-THROUGH MODULES

SOFT SEATING AREAS

CAPTIVATING FINISHES WITH ADDED FEATURES

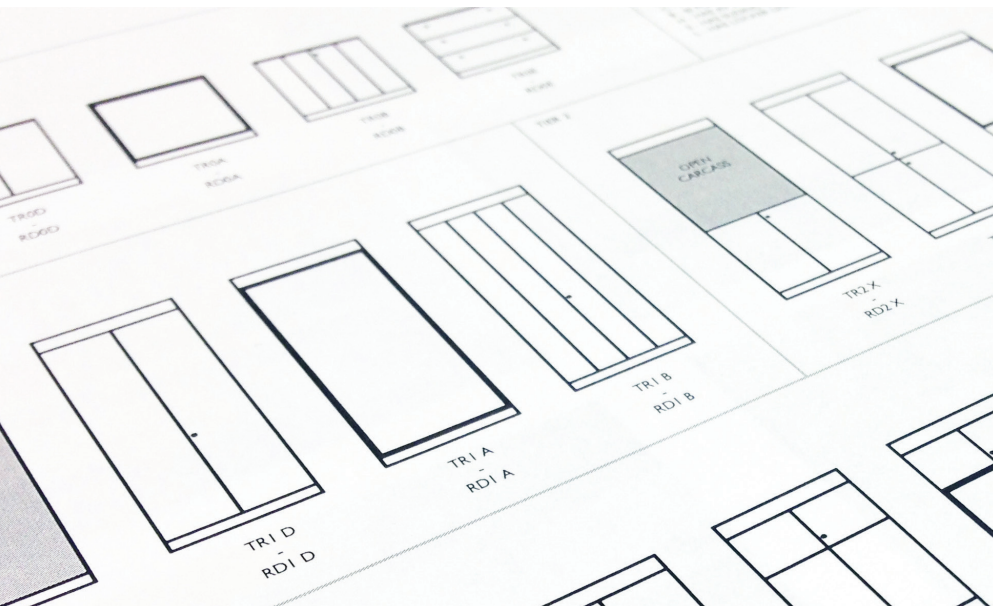

SHAPE MEETS FUNCTION

Every storagewall configuration is specifically designed for you.

Like our solutions, we understand offices come in all shapes and sizes; our systems have been cleverly designed to integrate into any office environment to meet your storage needs. Our units come in different module types and can be equipped with a vast selection of components to suit multiple uses, helping you create the furniture combination you are looking for.

SLEEK OUTSIDE, VERSATILE INSIDE

The internal features of our storage solutions are just as important as its external appearance.

We offer a huge range of internal accessories to ensure your system works for you, creating endless storage options.

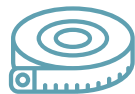

We have developed internal accessories which are designed to suit your individual storage requirements. Our systems are independently tested to ensure you receive a quality finish, from the inside and out.

THE FREEWALL JOURNEY

Your journey with Freewall begins with a straight-forward conversation. Your destination? A working space equipped with a carefully crafted and highly functional storage solution.

**STORAGE NEEDS
ARE IDENTIFIED
AND PRICED**

**A DESIGN
IS CREATED**

**THE PROPOSALS
ARE REVIEWED AND
APPROVED**

**OUR PRODUCT IS
MANUFACTURED
IN-HOUSE**

IMMERSIVE DESIGN COLLABORATION

Through the years we have developed a systematic process to ensure nothing is left out.

We collaborate efficiently with our clients to help cover every critical aspect of the project at a very early stage.

We can carry out site surveys and are happy to work together with architects and design teams to help bring your ideas and requirements to life. This allows us to offer a full storage solution and not just a product.

GOODS ARE SHIPPED FOR INSTALLATION

OUR FULLY TRAINED INSTALLATION TEAM IS AVAILABLE

COMPLETION AND HAND OVER

BUILT WITH PRECISION

At Freewall we work to the latest industry standards and focus on innovating and developing better ways to manufacture our product to a high standard.

We've been manufacturing all our storage solutions at our site in West Sussex for over 20 years and have full control over making all parts of our systems. As a result, we are able to offer shorter lead times and greater flexibility, allowing us to react promptly to site alterations and changes.

**MADE IN
BRITAIN**

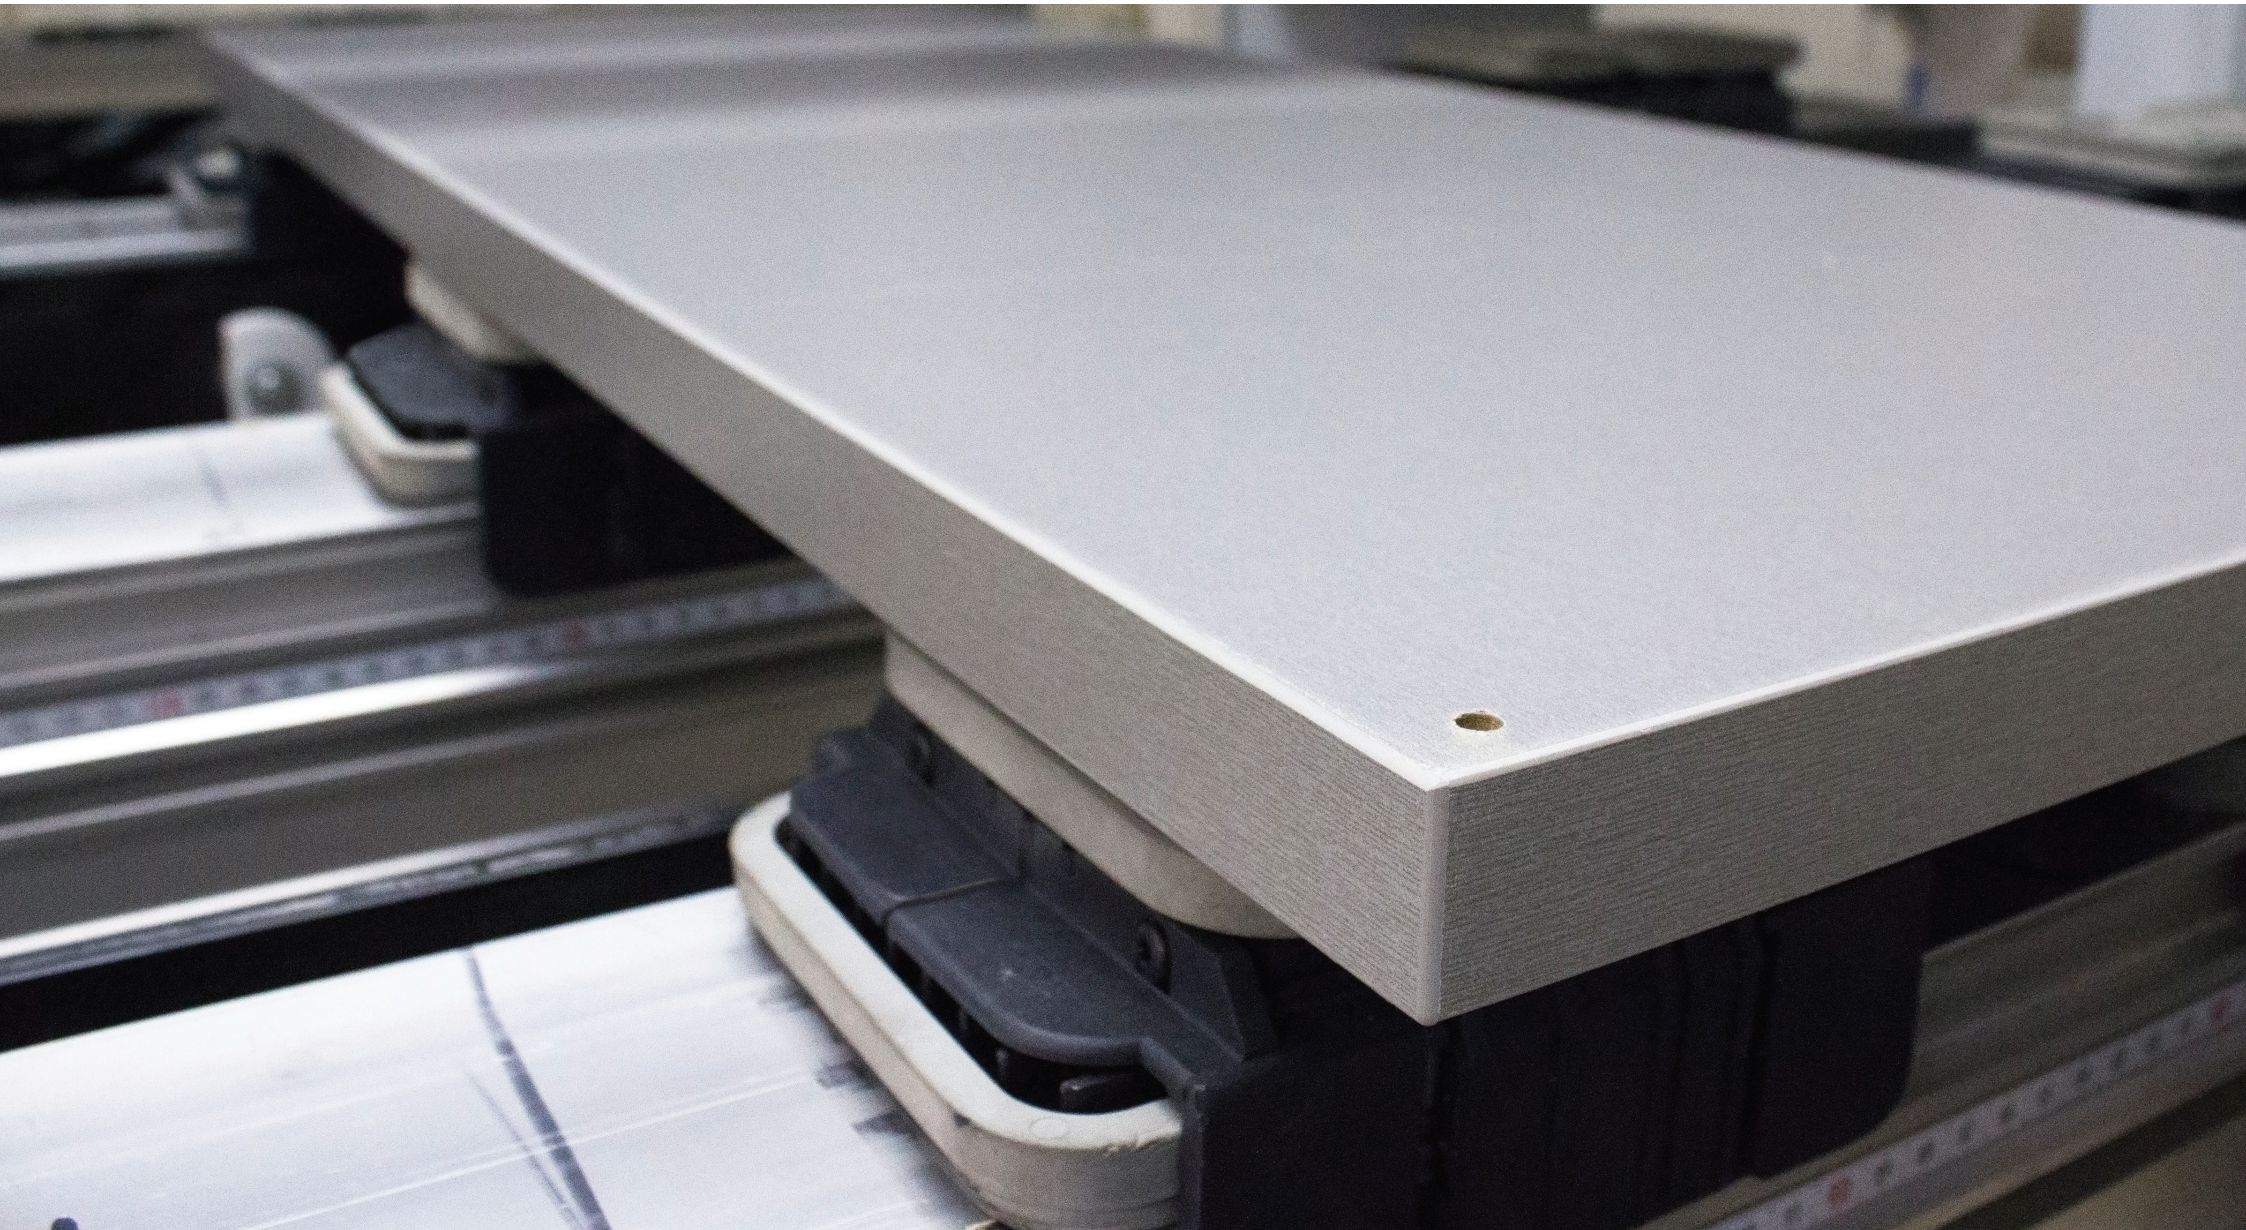

**HIGHLY
RESPONSIVE**

**20 YEARS OF
EXPERIENCE**

- 1 LAMINATE FINISHES** to match end user's corporate colour palette and integrate into its surroundings.
- 2 CUSTOM HANDLE** as specified by Architects or Design Team.
- 3 LACQUERED END PANELS** to seamlessly match the colour of nearby walls and decorations.

OUR CRAFT YOUR TRADE YOUR CHOICE

We work hard to create a solution which is tailored to your project and to the people using our furniture.

Freewall offers different levels of customisation, we can supply standard products and components on our range but are also able to adapt to a client's specific requirements. With virtually any finish available and a vast selection of componentry to choose from, we will work with you to create a bespoke look for your office.

We consider the small details which can transform a project. From matching colour schemes to bespoke handles and fitments that will help you create a consistent finish throughout the workplace.

OUR LOCKS & HANDLES

We supply bespoke, secure locking systems for our solutions.

Choose from standard key locks, manual combination locks, single or multiple user digital locks for hot-desking, RFID locks with a swipe card that also work with the building's door entry system... The options are infinite.

Besides the range of locks and handles on offer, we are able to create your own unique rebated handles and features onto lacquered doors and panels.

Can't decide? Why not try push-to-open doors for a seamless, minimalistic design.

THERE'S EVEN MORE TO ADD

We understand that there is more to storage than simply filing paper.

Our storagewall is incredibly versatile and can fit perfectly into almost any environment. We design our cabinets with this in mind, so they can be adapted to various purposes including recycling hubs, teapoints, fridge units, ventilated server units, etc.

FROM START TO FINISH

A vast range of high quality finishes, laminates and veneers are available.

A vast range of high quality finishes, laminates and veneers are available. We have a standard range of colours in stock, but the examples to the right are only the starting point.

We are able to manufacture in any board finish, from MFC, laminates, lacquers and acrylics, to real wood veneers from all the leading manufacturers – **there are thousands of options.**

INSTALLATION IN A BREEZE

Our team plans every aspect of the project ahead to ensure there are no unexpected events when the time to carry out the installation arrives.

Our storagewall products are taken through an in-depth design process to meet the needs of each specific project; they are supplied as partly assembled panels and components which will be built on site with both speed and efficiency. There is plenty of work done behind the scenes at our factory to minimise onsite disruption, all contributing to a smooth and professional install.
